

Digitisation Project Grants Round 2022

Guidelines for Applicants

Among the key aims of The History Trust of South Australia is to keep building the evidence of our state's rich and fascinating past and to make it accessible to all. Digitisation Project Grants is an initiative aimed at enabling more collections and stories to be gathered, preserved and shared. We welcome and appreciate your interest in helping to make that happen.

Our guiding principles

Digitisation Project Grants

This special funding round will support a small number of projects that make a significant contribution to the volume, scope or accessibility of South Australian digitised collections.

Eligibility

Applications are invited from communities, groups and individuals that own or manage a significant South Australian historical collection. Collections may be archival, images, objects or a mix of collection types.

Aims of funding

Funds are available for

- New digitisation - purchase of equipment and/or services to undertake digitisation of analogue collections or to facilitate any aspect of the digitisation lifecycle
- online projects that make an existing digitised collection widely accessible
- A combination of new digitisation and an online project.

Grants of between \$3,000 and \$10,000 will be considered for assessment. Smaller amounts

may be considered depending on needs and demands. Costs that have already been incurred cannot be funded.

How to apply
